

Bareos Project News Reader

Bareos goes Asia

2018-02-13 16:29

We will be exhibitor at [FOSSASIA](#) in Singapore from March, 22. -25. 2018 and our managing director Maik Außendorf gives a presentation at the conference. FOSSASIA is the most important open source event in Asia.

We are looking forward to meet Bareos users, customers and potential new partners. We want to expand our partner-network in Asia with open source minded companies.

Together with our partners we help customers world-wide to build and operate a reliable, secure and sustainable backup and restore infrastructure with our open source solution Bareos.

Please visit our booth, schedule a meeting or just leave a [message](#).
