Client-Packages for IBM AIX now available

2018-02-15 11:27

Bareos client-packages are now also available for IBM AIX 7.1. Subscription customers can find installation instructions and [download the packages at download.bareos.com](https://download.bareos.com).

Support customers will get full support when using those packages.

Please note that the bareos AIX packages are compiled against libraries from the "IBM AIX Toolbox for Linux Applications". Therefore it depends on packages provided by [IBM](https://www.ibm.com).

Subscription customers can find more information in the [installation instructions](#).
