

# Open Source

Bareos is an open source project. This site documents resources useful for people, who like to participate.

We have also a dedicated article in the [HOWTO section](#), which covers the technical processes like version control systems and so on.

## Source and binaries

See the [download](#) section for details.

## Maillinglists

We have the following mailinglists / Google groups, please join:

- for developers: [bareos-devel](#)
- for users: [bareos-users](#)

The following groups / lists might be of interest, too:

- brazilian / portuguese language bareos user list: [bareos-users-pt-br](#)

See details at [How to contribute](#)

## Bugtracker

Please use <https://bugs.bareos.org/> to file bugs or feature requests. You can also search for [unassigned](#) issues oder fearture request and start workin on them.
